

AMATEUR RADIO IN THE PARK

You've stumbled across a live radio station.

I'm taking part in *Parks on the Air (POTA)*, a worldwide activity where licensed amateur radio operators set up small, temporary stations in parks and talk to people using radio waves.

No mobile phones. No internet. Just old-fashioned-radio.

If you want to learn more, check out the YouTube channels below

Ham Radio DX (VK7HH)

Amateur Radio VK3YE

What Is POTA?

Parks on the Air encourages people to enjoy nature while exploring communication and science.

Get Involved Locally

Brisbane Amateur Radio Club (BARC)

Wireless Institute of Australia (WIA)

Anyone can become a licensed amateur radio operator.

No engineering background required. Curiosity is enough.

Have a lovely day!
